

INTRODUCING

LARGER LOADS, SMALLER FOOTPRINT

- **Full 360° reach and solid stability** from a smart, variable-gauge hydraulic undercarriage
- **High-rise cab** gives a clear, commanding view for loading, unloading, and stockpiling
- **Integrated DECKHAND® system** delivers total control—meaning safer, faster pipe handling in any condition
- **Compact frame, heavy-lift power**—up to 25% more lift capacity than similar-sized excavators
- **Quick-change front end** swaps boom and stick in seconds with full electronic and hydraulic connection

LAURINI

SETTANTA

PIPELINER

EQUIPPED
WITH

**PURPOSE-BUILT TO SAFELY
LIFT, PLACE, AND HANDLE
PIPE WITH TOTAL CONTROL.**
